

RECYCLE YOUR COFFEE

A1
ENVIRONMENT

WHO WE ARE

WE ARE A BUSINESS THAT SUPPORTS THE WORLD

A1 Environment was established in 2012. Having been in the business of recycling for over 20 years, we set up A1 Environment to provide more flexibility and better services to organizations. Because sustainability is not just making the world better for you and me - it's for our future generations.

Our process of coffee recycling did not come about as a fad. It was in response to a very real situation we face.

Many don't think of coffee as a waste stream. After all, how much waste does a cup of joe create?

6,300,000 kilograms of coffee thrown away every year - and the figure is growing.

A study showed that this age of coffee drinkers spend more on coffee than they do saving*. In 2017, Singapore consumed 105,000 bags of 60kg coffee beans. That's 6,300,000 kilograms* of coffee thrown away every year - and the figure is growing.

We are here to change that - by giving new life to your coffee.

HOW WE DO IT

The cycle of used coffee grounds

Used coffee grounds are separated at the source.

We provide dedicated receptacles to store them.

We collect the coffee grounds on a scheduled day.

The coffee grounds are processed in our facility.

They are upcycled into various products.

COFFEE PRODUCTS

CLOSING THE LOOP

The biggest question when it comes to resource recovery is 'Where does it all go?' We are not happy with handing it off to someone else and hoping for the best. Thus, we set out on a mission to find partners in creating end products that are with recovered coffee grounds, useful, and can be put back in the loop if need be.

These are a few of the projects we are working on.

RESPONSIBLE CONSUMPTION

We hope that these products will be a consideration for all conscious coffee consumers - to give them the option of having their 'waste' being turned into something that they can use in their everyday lives, instead of another pile in the landfill.

RECOVERED COFFEE IN FURNITURE

- Our proprietary technology allows us to create useful, hardy and fire-retardant furniture from used coffee grounds, making the best of your cup of joe.

RECOVERED COFFEE IN COMPOSTING

- We work with local farms which use recovered coffee grounds in their compost, to boost crop growth and health.

SPENT COFFEE IN EVERYDAY LIFE

- Coffee itself is a rich material, even after we have extracted our boost of caffeine from it. It can be used in various ways, from eliminating odours, being a great addition to your garden soil, or to add to your self-pampering beauty products. We bring them into more items you can use.

COFFEE PRODUCTS

BALL POINT PEN

An seemingly-average ball point pen that is versatile and stylish. Sure to be the ice breaker of any conversation.

CUTLERY SET

Add a touch of class to your takeaway meals with this cutlery set made from used coffee grounds.

CLOTHES HANGER

Sustainability can be woven throughout your whole organization with the coffee grounds clothes hanger.

EVERYDAY MUG

For hot or cold drinks, the everyday mug is most suited for corporate gifts, or a pantry staple.

LATTE MUG

A stylish and durable mug for conscious coffee lovers. Enjoy your morning cup of joe guilt-free with our latte mug.

TO GO CUP

A responsible choice for your on-the-go beverage needs. Sturdy and convenient to fit into your daily routine.

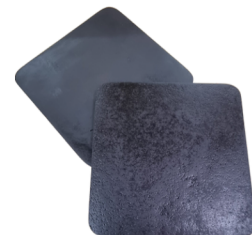

COFFEE COMPOST

A sustainable compost to truly close the loop - made from used coffee grounds and broken down over months to provide optimum nutrients for your plants.

COFFEE COASTERS

A simple coaster with a raw finish which speaks volumes about your sustainable journey.

COFFEE WOOD PANELS

Specially formulated hardy panels used for furniture-making or wall panelling.

PLEASE REACH OUT TO US IF YOU REQUIRE MORE INFORMATION ON ANY OF OUR PRODUCTS.

MEASURE YOUR ACTIONS

MONTHLY RECYCLING REPORTS

At the end of every month, get a report to accurately track how much coffee waste you have diverted from our incineration plant and landfill. At the end of the year, receive an additional report for you to have an overview of your recycling efforts.

We weigh every collection from your site for an accurate measure. This report can be added into your overall CSR reports as well.

THE BETTER CHOICE

MORE SUSTAINABLE PRODUCTS

Our products are made from the very coffee we recover. We encourage you to explore the different possibilities of which you can help close the loop.

Various products, from furniture in the office, to practical corporate gifts that can raise awareness at the same time, you can choose to make a more sustainable choice of having them made out of the coffee that you recycled,

Discuss with us the possibilities.

OUR AWARDS

We believe in what we do

In 2021, we were awarded the Food Resource Valorisation Awards by the National Environment Agency for our efforts in converting of used coffee grounds into bio-composite material.
